**BEST SELECTED PAPERS WILL BE INVITED TO SUBMIT AN EXTENDED VERSION TO
DECISION SUPPORT SYSTEMS JOURNAL (JCR, IMPACT FACTOR: 1.873)**

Call For Papers

BEWEB intends to be an international forum for exchanging ideas on how to **leverage the huge amount of data that is available on the Web in BI applications**, on how to **apply Web engineering methods and techniques to the design of BI applications**, and on how to **use BI knowledge in the design of Web applications**. Papers focused on new domains and new experiences with the connection between BI and the Web are also highly encouraged. The workshop will be a forum for researchers, designers, and users who are related to these three main topics.

Topics (non-exclusive)

- Web warehousing
- Extraction, transformation, and load of Web data
- Web integration
- Web data quality
- Semantic Web technologies
- Web Mining
- Web Intelligence
- The role of Web 2.0/3.0 in BI
- BI with unstructured data (e.g., text) and semi-structured data (e.g., XML)
- BI for designing adaptive websites
- Web engineering techniques for BI applications (Web mashups, RIA, etc.)
- Real time BI
- Business performance management
- Usability and accessibility for BI applications
- Security issues in BI
- BI as a service

Important Dates

Paper submission: October 26, 2009

Notification to authors: December 8, 2009

Camera-ready papers: January 10, 2010

Workshop: March 22, 2010

Publication

Paper submission will be electronic by using the EasyChair system at http://www.easychair.org/conferences/?conf=edbt_2010. The length of submitted papers should not exceed 8 pages in ACM double-column format (see guidelines at <http://www.acm.org/sigs/publications/proceedings-templates>). Papers not conforming to these requirements may be rejected without further consideration.

Publication for BEWEB workshop will be handled together with publications from the main conference. **Best selected papers will be invited to submit an extended version in a special issue of the Decision Support Systems journal (<http://www.elsevier.com/locate/dss>) listed in JCR with impact factor of 1.873.**
